

The Sustainability Trust

*Rotarians for Sustainability
& Carbon Reduction*

A Global Rotary Club Project

The Observer newspaper

'Peak Oil' is approaching

Natural disasters are getting more severe

Carbon emissions are warming the planet

We are polluting our home base

We have become the throw-away society

Are Rotarians Aware of the implications?

Are we getting involved?

Are we doing anything?

Now you can join a growing movement around the world that is seeking solutions

The Sustainability Trust was formed by Rotarians to act as a catalyst that brings together the challenges, the experts and Rotarians who want to make a difference.

Register by e.mail at <info@TheSustainabilityTrust.org> and become part of this new project

The Sustainability Trust is a charitable foundation registered by the Charity Commission in England & Wales

Initial funding came from 11 Founding Member Rotary Clubs on 5 continents
